2nd choice: _____

3rd choice: _____

Start time*: _____

Access time for set up: _____

Location at school: Cafeteria _____ Gym _____

Must exit by (time)*: _____

CONFIRMED DATE: _____

* SaveWaterTexas team members must travel long distances to reach many of the KISD schools. When travel time occurs during rush hours, delays can occur. Ideally, the program would start at 9:30 am, if the location for the assembly within the school is available for approximately two hours (including set up and exit). The program — including the presentation and “walk-around” for the students — usually lasts an hour, allowing a half hour each for set up and break down of displays.
