General Manager

PROVISIONS FOR PERMIT # 178183

- G1a This permit is **exempt** from disincentive permit fees based on and subject to the permittee's continued compliance with the requirements and provisions outlined in its groundwater reduction plan certified by the Board of Directors on 4/9/2003. The permittee shall timely achieve the implementation actions, milestones, and other requirements set forth in its groundwater reduction plan. Any change in the plan with respect to the amount or source of alternate water or in the timing of reduction of groundwater shall be filed with the District for its approval in the form of an amendment to the GRP. The permittee shall submit any required progress reports in a form that adequately addresses the projects that have been undertaken to timely reduce its use of groundwater in accordance with its GRP.
- O The permittee shall furnish the District with **proof that the meter is installed** according to the manufacturers specifications or a certified affidavit confirming the accuracy of the water meter in accordance with Rule 8.5 of the Rules of the District, on or before 8/10/2015.
