## PROVISIONS FOR PERMIT # 175765

- G1a This permit is **exempt** from disincentive permit fees based on and subject to the permittee's continued compliance with the requirements and provisions outlined in its groundwater reduction plan certified by the Board of Directors on 4/9/2003. The permittee shall timely achieve the implementation actions, milestones, and other requirements set forth in its groundwater reduction plan. Any change in the plan with respect to the amount or source of alternate water or in the timing of reduction of groundwater shall be filed with the District for its approval in the form of an amendment to the GRP. The permittee shall submit any required progress reports in a form that adequately addresses the projects that have been undertaken to timely reduce its use of groundwater in accordance with its GRP.
- M Within sixty days of the beginning of the permit term, the permittee shall furnish the District with **proof** that the **meter is installed** according to the manufacturers specifications or a certified affidavit confirming the accuracy of the water meter in accordance with Rule 8.5 of the Rules of the District.

## CONDITIONS AND REQUIREMENTS

- a. This permit is granted in accordance with the provisions of Chapter 8801, and the rules and orders of the District, and acceptance of this permit constitutes an acknowledgment and agreement that the permittee will comply with Chapter 8801, all the terms, provisions, conditions, requirements, limitations, and restrictions embodied in this permit and with the rules, regulations, and orders of the District.
- b. This permit confers no vested rights in the holder, and it may be revoked or suspended, or its terms may be modified or amended pursuant to the provisions of Chapter 8801. Any person who becomes the owner of a permitted well must notify the District of the name and contact information for the new owner within 90 calendar days from the date of the change in ownership.
- c. The operation of the well for the authorized withdrawal shall be conducted in a non-wasteful manner.
- d. Except as provided in Rule 8.2, a water meter must be installed and operated in accordance with Section 8 of the Subsidence District's rules.
- e. The owner of a permitted well shall keep accurate records, on a monthly basis, of the amount of groundwater withdrawn and the purpose of the withdrawal, and such records shall be provided to the permittee and available for inspection by the Subsidence District representatives. If a meter is required, the meter shall be read, and the meter reading and actual amount of pumpage recorded each month in accordance with Rule 8.7 of the Subsidence District's rules. Immediate written notice shall be given to the Subsidence District in the event a withdrawal exceeds the quantity authorized by this permit.
- f. The well site shall be accessible to Subsidence District representatives for inspection, and the permittee agrees to cooperate fully in any reasonable inspection of the well and well site by the Subsidence District representative.
- g. The application pursuant to which this permit has been issued is incorporated in this permit, and this permit is granted on the basis of and contingent upon the accuracy of the information supplied in that application and in any amendments to the application. A finding that false information has been supplied shall be grounds for immediate revocation of the permit. In the event of conflict between the provisions of this permit and the contents of the application, the provisions of this permit shall control.
- h. Violation of this permit's terms, conditions, requirements, or special provisions, including pumping amounts in excess of authorized withdrawal, shall be punishable by civil penalties as provided by Section 8801.204, Special District Local Laws Code.
- i. Wherever special provisions are inconsistent with other provisions or rules of the Subsidence District, the special provisions shall prevail.
